PROFESSIONAL SUMMARY

Software Engineer with hands-on experience designing, developing, and maintaining scalable web applications using C#, ASP.NET Core, React, SQL Server, and Entity Framework Core. Skilled in RESTful API development, Clean Architecture, SOLID Principles, authentication and authorization (JWT), database design, and full-stack development across the complete Software Development Lifecycle. Strong problem-solving skills with a proven ability to deliver reliable, maintainable, and business-driven software in Agile environments.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL

Backend: ASP.NET Core, ASP.NET MVC, Web API, Entity Framework Core, LINQ

Frontend: React.js, Next.js, HTML5, CSS3, TailwindCSS, Bootstrap

Database: SQL Server, Database Design, Query Optimization

Engineering: OOP, SOLID Principles, Design Patterns, Clean Architecture, Repository Pattern, Dependency Injection

Security: JWT Authentication, Role-Based Access Control (RBAC), Authorization, API Security

Tools & Methods: Git, GitHub, Visual Studio, VS Code, Postman, Agile, Scrum

PROFESSIONAL EXPERIENCE

Software Engineer / Full Stack Developer | Luxor Booking Tours *Oct 2025 – Jun 2026*

- Developed and maintained scalable web applications using ASP.NET Core and React, supporting core business operations.
- Designed and implemented RESTful APIs following Clean Architecture and SOLID principles for maintainable, testable code.
- Built responsive, user-friendly interfaces and optimized SQL Server database queries to improve application performance.
- Implemented JWT-based authentication and role-based authorization to secure application endpoints.
- Collaborated across the full Software Development Lifecycle in an Agile team, delivering new features and resolving bugs.

IT Support Intern | Agricultural Bank of Egypt *Oct 2023*

- Supported enterprise systems across multiple branches, resolving technical issues to maintain operational stability.
- Assisted with software deployment, updates, troubleshooting, and system maintenance.

PROJECTS

Hospital Management System — ASP.NET Core Web API, React, SQL Server, Entity Framework Core, JWT

- Built a healthcare management platform with role-based access control and secure JWT authentication.
- Developed scalable backend REST APIs to manage patient records and appointment scheduling.

Farhetak — Wedding Hall Booking Platform — ASP.NET Core Web API, React, SQL Server, Entity Framework Core

- Developed end-to-end booking and reservation workflows with a responsive React front end.
- Designed backend REST APIs and relational database structures to support platform functionality.

EDUCATION

Bachelor of Computer Science | Luxor University *2019 – 2023*

Information Technology Institute (ITI) — .NET Full Stack Web Development Track *2025*

CERTIFICATIONS & LANGUAGES

Certification: Cisco CCNA v7

Languages: Arabic (Native), English (Very Good)
