

EZZ ABDELMOEZ AHMED MOHAMED

Desktop Application Developer

Egypt | +20 101 408 0630 | ezzabdelmoez@gmail.com | [linkedin.com/in/ezz-abdelmoez](https://www.linkedin.com/in/ezz-abdelmoez) | github.com/ezz-abdelmoez | <https://v0-ezz-abdelmoez.vercel.app/desktop-engineer>

PROFESSIONAL SUMMARY

Desktop Application Developer with hands-on experience designing, developing, and maintaining Windows desktop applications using C#, .NET, WPF, WinForms, and SQL Server. Skilled in building business management systems, POS systems, and database-driven enterprise desktop solutions using MVVM architecture, Entity Framework Core, dependency injection, and object-oriented design principles. Strong understanding of desktop UI development, software architecture, database design, and performance optimization, with a passion for building reliable, maintainable, and scalable desktop applications that improve business productivity.

CORE TECHNICAL SKILLS

Languages: C#, SQL, XAML

Desktop Development: WPF, Windows Forms (WinForms), .NET Framework, .NET 6 / .NET 8, XAML Development

Desktop Architecture: MVVM Pattern, Dependency Injection, Clean Architecture, SOLID Principles, Design Patterns, Layered Architecture

Data Access: Entity Framework Core, ADO.NET, LINQ, SQL Server, Microsoft Access

UI/UX: Custom Controls, Data Binding, Commands, User Controls, Responsive Desktop UI, Theme Management

Libraries & Frameworks: WPF UI (Lepo UI), Autofac, Mapster, CommunityToolkit.Mvvm

Tools & Practices: Visual Studio, Git, GitHub, Azure DevOps, OOP, Debugging, Performance Optimization, Refactoring, Code Reviews

PROFESSIONAL EXPERIENCE

Desktop Application Developer | Estrategia Startup *Jun 2024 – Present*

- Developed and maintained Windows desktop applications using WPF and C#, implementing MVVM architecture for scalable, maintainable solutions.
- Designed database-driven business management systems, integrating SQL Server and Access databases.
- Built reusable UI components and custom controls to accelerate feature development across desktop modules.
- Implemented reporting, inventory, sales, and management modules to support core business operations.
- Improved application performance and user experience through targeted optimization and refactoring.
- Participated in software design, debugging, testing, and deployment across the full development lifecycle.

IT Support Intern | Agricultural Bank of Egypt *Oct 2023 – Present*

- Provided technical support and troubleshooting, assisting with software deployment and maintenance.
- Supported enterprise systems and end users, ensuring system reliability and operational continuity.

KEY PROJECTS

POS Management System — C#, WPF, MVVM, Entity Framework Core, SQL Server

- Developed a complete point-of-sale desktop solution with inventory, sales, purchasing, and reporting modules.
- Designed scalable MVVM architecture and improved maintainability using dependency injection.

Restaurant Management System — C#, WPF, SQL Server

- Built desktop software for restaurant operations, implementing order management and billing workflows with responsive desktop UI.

Travel Agency Management System — C#, WinForms, ADO.NET, SQL Server

- Developed booking and reservation management modules with customer and financial tracking on database-driven workflows.

EDUCATION

Bachelor of Computer Science | Luxor University *2019 – 2023*

Information Technology Institute (ITI) — .NET Full Stack Web Development Track *2025*

CERTIFICATIONS & LANGUAGES

Certification: Cisco CCNA v7

Languages: Arabic (Native), English (Very Good)
