

EZZ ABDELMOEZ AHMED MOHAMED

Full Stack Developer (.NET & React)

Egypt | +20 101 408 0630 | ezzabdelmoez@gmail.com | [linkedin.com/in/ezz-abdelmoez](https://www.linkedin.com/in/ezz-abdelmoez) | github.com/ezz-abdelmoez | v0-ezz-abdelmoez.vercel.app

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience designing, developing, and maintaining scalable web applications using ASP.NET Core, React, Next.js, Entity Framework Core, and SQL Server. Experienced in building end-to-end solutions including backend APIs, frontend user interfaces, authentication systems, and database architecture. Strong understanding of software architecture, Clean Architecture, SOLID principles, RESTful APIs, responsive design, and security best practices across the complete Software Development Lifecycle. Passionate about delivering maintainable, high-performance software that improves business processes and user experience.

CORE TECHNICAL SKILLS

Languages: C#, TypeScript, JavaScript (ES6+), SQL

Backend: ASP.NET Core, ASP.NET MVC, Web API, Entity Framework Core, LINQ, Dependency Injection

Frontend: React.js, Next.js, TypeScript, HTML5, CSS3, TailwindCSS, Responsive Design

Database: SQL Server, Database Design, Query Optimization, Entity Framework Core

Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC), Authorization, API Security

Architecture & Engineering: Clean Architecture, SOLID Principles, Design Patterns, Repository Pattern, OOP

API Development: RESTful APIs, Swagger/OpenAPI, Postman, API Integration

Tools & Methods: Git, GitHub, Azure DevOps, Visual Studio, VS Code, Vercel, Agile, Scrum, SDLC

PROFESSIONAL EXPERIENCE

Full Stack Developer | Luxor Booking Tours *Oct 2025 – Jun 2026*

- Developed and maintained full-stack web applications end-to-end using ASP.NET Core, React, and SQL Server.
- Designed and implemented scalable RESTful APIs, applying Clean Architecture and SOLID principles.
- Built responsive, user-friendly interfaces and integrated frontend applications with backend services.
- Developed secure authentication and authorization systems, including JWT and role-based access control.
- Designed and optimized relational database structures to support core application features.
- Participated in architecture discussions, code reviews, testing, and deployment, improving performance, maintainability, and scalability.

IT Support Intern | Agricultural Bank of Egypt *Oct 2023*

- Supported enterprise software systems and infrastructure across multiple branches.
- Assisted with troubleshooting, deployment, and maintenance, ensuring operational reliability.

KEY PROJECTS

Hospital Management System — ASP.NET Core Web API, React, SQL Server, Entity Framework Core, JWT

- Built a complete healthcare management platform with secure authentication and RBAC, applying Clean Architecture principles.
- Developed APIs for patient, appointment, and staff management, with responsive frontend dashboards in React.

Farhetak — Wedding Hall Booking Platform — ASP.NET Core Web API, React, SQL Server, Entity Framework Core

- Developed venue booking and reservation workflows end-to-end, building responsive UI and scalable backend APIs.

Tour Booking Platform — ASP.NET Core, React, SQL Server

- Developed booking, reservation, and availability features, integrating frontend and backend systems into production-ready functionality.

EDUCATION

Bachelor of Computer Science | Luxor University *2019 – 2023*

Information Technology Institute (ITI) — .NET Full Stack Web Development Track *2025*

CERTIFICATIONS & LANGUAGES

Certification: Cisco CCNAv7

Languages: Arabic (Native), English (Very Good)
