

EZZ ABDELMOEZ AHMED MOHAMED

Backend Developer (.NET)

Egypt | +20 101 408 0630 | ezzabdelmoez@gmail.com | [linkedin.com/in/ezz-abdelmoez](https://www.linkedin.com/in/ezz-abdelmoez) | github.com/ezz-abdelmoez | <https://v0-ezz-abdelmoez.vercel.app/backend-engineer>

PROFESSIONAL SUMMARY

Backend Developer specializing in designing, developing, and maintaining scalable, secure, and high-performance backend systems using C#, ASP.NET Core, Entity Framework Core, and SQL Server. Experienced in building RESTful APIs, authentication and authorization systems, and database-driven enterprise applications following Clean Architecture, SOLID principles, and proven design patterns. Strong understanding of software architecture, database design, API security, and performance optimization across the complete software development lifecycle. Passionate about writing clean, maintainable code and delivering reliable backend solutions that support business growth.

PROFESSIONAL EXPERIENCE

Full Stack Developer | VELRIX

Jun 2026 – Present

- Develop and deliver scalable digital products for businesses using **ASP.NET Core, React, Next.js, and SQL Server**.
- Contribute across **software engineering, user experience, and AI-driven solutions**, from architecture and development to deployment.
- Collaborate on client projects, translating business requirements into maintainable, production-ready software solutions

KEY PROJECTS

VELRIX — Digital Solutions Platform — Next.js, React, TypeScript

- Developed a corporate platform for a technology company providing software development, UX, AI, mobile, cloud, and technical support services, with dedicated service, portfolio, and client-conversion workflows.

Nasag — E-commerce Theme Discovery Platform — Next.js, React, TypeScript

- Built a platform for discovering and comparing Arabic e-commerce themes through categorized listings, theme previews, details, favorites, and custom-theme requests.

PLORY — Integrated Engineering Services Platform — Next.js, React, TypeScript

- Developed a corporate platform for an integrated engineering services company, presenting HVAC, electrical, mechanical, finishing, and safety services alongside projects, company capabilities, and service inquiries.

Hospital Management System — ASP.NET Core Web API, React, SQL Server, Entity Framework Core, JWT

- Built a complete healthcare management platform with secure authentication and RBAC, applying Clean Architecture principles.

Tour Booking Platform — .Net Framework WebPages, SQL Server

- Developed booking, reservation, and availability features, integrating frontend and backend systems into production-ready functionality.

CORE TECHNICAL SKILLS

Languages: C#, SQL, JavaScript (Basic)

Backend Technologies: ASP.NET Core, ASP.NET Web API, ASP.NET MVC, .NET 6, .NET 8

API Development: RESTful APIs, API Versioning, Swagger / OpenAPI, Postman, API Documentation

Database: SQL Server, Entity Framework Core, LINQ, Database Design, Query Optimization, Stored Procedures

Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC), Authorization, Identity Management, API Security

Architecture & Engineering: Clean Architecture, SOLID Principles, Design Patterns, Dependency Injection, Repository Pattern, Unit of Work Pattern, Layered Architecture

Tools & DevOps: Git, GitHub, Azure DevOps, Visual Studio, CI/CD Fundamentals

Practices: OOP, Agile, Scrum, Debugging, Testing, Refactoring, Performance Optimization

EDUCATION

Bachelor of Computer Science | Luxor University 2019 – 2023

Information Technology Institute (ITI) — .NET Full Stack Web Development Track 2025

CERTIFICATIONS & LANGUAGES

Certification: Cisco CCNAv7

Languages: Arabic (Native), English (Very Good)
